Such buoys and/or beacons are to conform with the Uniform Waterway Marking System. Minimum sizes for buoys and required markings are to be as specified on the attached drawing and Administrative Rule.

This permit does not grant any property rights to real estate in or on any body of water, or authorize the establishment of buoys or beacons on bottomlands not owned by the permittee unless a letter of "no objection" has been obtained from the owner and is on file with the Michigan Department of Natural Resources, nor does it obviate the necessity of the permittee obtaining federal assent where required.

This permit is valid indefinitely unless revoked by the Department of Natural Resources. Buoys or beacons placed contrary to the terms of this permit will be ordered removed and the permit revoked.

ADDITIONAL INFORMATION The Michigan Supreme Court has ruled that any person has the right to the surface of the whole lake on which to boat and fish, so long as there is no interference with the reasonable use of the waters by riparian owners and their lessees and licensees. Connecting buoys or beacons together by float lines or other means might well restrict the use of the whole lake and for this reason the Department cannot authorize such arrangements. The placement of any such connected buoys is at the permittee's own risk and may be subject to the objection that the use of the whole lake is thus unreasonably impeded.
